PRESENTATION

Our Association was founded in 2013 because of the desire of the founding members (Ioan and Nicoleta Griguta and Angelica Pruteanu) to be actively involved in the life of the community. We started with small steps, from organizing an international annual chess competition for children and then we learned to spend our time in the community. We have concluded partnership agreements with the schools in Mangalia and the nearby towns, and so we started working with children in different educational projects. We have signed protocols with the Transylvanian, Tatar and Lipovan Russian communities and have developed cultural and traditional projects. To find sources of funding for our projects, we have accredited adult training courses, so we have managed to fund our social projects. About our project you can find on the association's website: www.procomunitate.ro

When our team joined a specialist in writing and implementing projects with European funding, our perspective widened. So, following the implementation of projects funded by EEA and Norwegian funds, we have better understood what we can do in our community. We started working with children from disadvantaged families, but also with those from families of cohabiting nationalities.

Our objectives were: the formation of social and civic skills for children in linguistic difficulty. So, we formed a coordination team of the project consisting of Magda Iacob, history teacher, having experience in pedagogy and modern methods of teaching, Monica Silvia Lipnic, having experience in foreign language teaching methods and Kiralyfiy Aurelia Narcisa, systemic family and couple psychotherapist having outstanding results in treating children in difficulty.

Communication is the key to all interactions and for children it is fundamental to their development. Communication is essential for learning and the foundation for playing, creating relationships and all types of social interactions.

Monica Silvia Lipnic started working with the children coming from problematic families helping our psychotherapist in the process of teaching them to open and learn how to communicate, since children with communication difficulties are likely to, also, have behavior difficulties. Thus, by helping them to learn communication we help them make themselves understood and, at the same time, in the long run, help them integrate in society.

DECOLANG SEMINAR

We are working with a small group of children from the Russian-Lipovean community near Mangalia.

2 Mai, an enclave with many ethnic groups living in harmony and peace!

Lipoveni. It represents a Slavic ethnic group, of Russian origin, cantonated in Tulcea, Constanța, Braila, Ialomița, Bucovina. After the synod of 1654, Patriarch Nikon reformed the Russian church, and Peter the Great (1682-1725) introduced drastic Europeanization measures. Not being able to bear all these restrictions, starovers (the old rite believers) took the lead, settling at the mouth of the Danube, in Dobrogea, originally being fishermen on Don and the Dnieper. Some settled in Bukovina. They are known by local authorities under the name of LIPOVENI or Filipoveni, from FILIP PUSTOVIAT, one of their leaders. They emigrated 200 years ago, in two waves: the first, after Bulavin's uprising, in the time of Peter the Great, the second, during the reign of Catherine II (1762-1796). In the 2002 census, there were 289 Lipovans in 2May.

PRESENTATION

Asociatia noastra a luat fiinta in anul 2013 ca urmare a dorintei membrilor fondatori (Ioan si Nicoleta Griguta si Angelica Pruteanu) de a se implica activ in viata comunitatii. Am pornit cu pasi mici , de la organizarea unui concurs international de sah anual, pentru copii iar apoi am invatat sa ne daruim timpul si energia comunitatii. Am incheiat acorduri de parteneriat cu scolile din Mangalia si localitatile din apropiere si astfel am inceput sa lucram cu copii in diferite proiecte educationale. Prin protocoalele semnate cu comunitatile conlocuitoare, tатari si rusi lipoveni am desfasurat proiecte culturale si traditionale. Pentru a gasi sursele de finantare pentru proiectele noastre am acreditat cursuri de formare profesionala pentru adulti. Astfel am reusit sa finantam proiectele sociale. Despre proiectele noastre puteti afla de pe site-ul asociatiei: www.procomunitate.ro

In momentul in care echipei noastre s-a alaturat un specialist in scrierea si implementarea proiectelor cu finantare europeana, perspectiva s-a largit. Ca rezultat al implementarii proiectelor cu finantare din fonduri SEE si Norvegiene, am intes mai bine ceea ce putem face pentru comunitatea noastra. Am inceput sa lucram cu copii proveniti din familii defavorizate, dar si cu cei din familii ale nationalitatilor conlocuitoare, aflati in cautarea identitatii nationale si a pastrarii traditiilor si valorilor culturale traditionale.

Obiectivele noastre au fost: formarea deprinderilor sociale si civice pentru copii aflati in dificultate lingvistica.

Am format o echipa de coordonare a proiectului formată din prof. Magdalena Iacob cu experienta in pedagogie - metode moderne de predare, prof. Silvia Monica Lipnic cu experienta in metode de predare a limbilor straine si psihoterapeut Kiralyfiy Aurelia Narcisa, psihoterapeut sistemic de familie si cuplu cu rezultate deosebite in tratarea copiilor aflati in dificultate.

Silvia s-a concentrat pe grupul de copii proveniti din familii defavorizate, iar Magda pe grupul de copii proveniti din comunitatea rusilor lipoveni.

SEMINARUL DECOLANG

2 Mai, o enclavă cu multe grupuri etnice, care trăiesc în armonie si pace!

LIPOVENI. Reprezintă un grup etnic slav, de origine rusească, cantonati în Tulcea, Constanța, Brăila, Ialomița, Bucovina. După sinodul din 1654, Patriarhul Nikon a reformat biserică rusă, iar Petru cel Mare (1682-1725) a introdus măsuri drastice de euopenizare. Neputând suporta toate aceste restricții, staroverii (credincioșii de rit vechi) au luat drumul pribegiei, stabilindu-se la gurile Dunării, în Dobrogea, la origini fiind pescari pe Don și Nipru. Unii s-au stabilit în Bucovina. Sunt cunoscuți de autoritățile locale sub denumirea de LIPOVENI sau filipoveni, de la FILIP PUSTOVIAT, unul din liderii lor. Au emigrat acum 200 de ani, în două valuri: primul, după răscoala lui Bulavin, pe vremea lui Petru cel Mare, al doilea, în timpul tarinei Ecaterina a II-a (1762-1796). În recensământul din 2002, în 2 Mai existau 289 de lipoveni.
